Emergency Medical Technician

150 hours | 18 weeks | Tuition/Fees: \$1,500

Emergency Medical Technician training is designed for people interested in the care and transportation of patients in emergency vehicles. The course contains class work and clinical experience. Learn how to operate an ambulance, transport and care for patients and how to determine the nature and extent of illness or injury.

Students

- Must be at least 17 years of age; be physically fit and be of good moral character.

***Tuition/fees are board approved. These are subject to change.**
