

RESET & RESTART PLAN

Mid-East is prepared and committed to providing high-quality career opportunities and education to our students in a safe and responsible manner.

DELAYED START – September 8

First Day of Preschool: September 8, 2020

Delaying the start of the school year gives our staff members additional time to prepare the environment for the children.

DROP OFF/PICK UP

The preschool will begin the school year using a different model. Families will follow a specific drop off and pick up procedure.

PRE-K ROOM 1

Preschool staff will be available in the parking lot during drop off and pick up. Please do not come to the classroom/entrance doors.

Parent/Guardians may bring their child to the designated spot on sidewalk by the parking lot.

PRE-K ROOM 2

AM Class

Please do not arrive before 7:45am for drop off. Pick up time will be 11am.

PM Class

Please do not arrive before 11:45am for drop off. Pick up time will be 3pm.

*Follow the same procedure for drop off and pick up as Pre-K Room 1.

See the district full plan on our website!

FACE COVERING POLICY

Staff members will be **required** to wear a face covering/mask, unless working alone or are unable due to recommended industry standards or personal health reasons.

Parents will be **required** to wear a face covering/mask when entering Mid—East for special events, unscheduled drop off or pickups unless they are unable due to personal health/developmental reasons.

Children are **permitted** but not required to wear a face covering/mask.

HEALTH & SAFETY PRECAUTIONS

- ☑ Classroom desks will be distanced per recommendations and cleaned between uses.
- ☑ Students will sit in assigned seats at group time and meal time.
- ☑ Continual and daily cleaning practices will be followed every day per recommendations.

DAILY HEALTH SCREENINGS

Staff members, students, parents/guardians and visitors will be required to conduct an online daily health screening that will provide a “fast-pass” to be at preschool or enter the building. Alternative methods to collect this information will be provided for anyone without access to a device or unable to complete the screening on their own.

If a student or staff member displays COVID-19 symptoms, a further assessment by healthcare professionals will be completed. Appropriate steps will be taken following the assessment.
